Freon (2015 - ongoing)

This fridge has lived at 2954 West 4th since the wisteria was a baby. It blooms every may and it is bigger on the inside then the outside. our fridge is just like our garden it has held so many different parts and projects and experimentations and notes and messages and communication from so many people, plants, animals, birds and bugs and that one skunk that lived under the floor for a year, and the one very wise old rat who climbed the stairs very slowly. The garden and fridge hold all of this similarly, with all our mistakes & the fridge can even stay cool.. This is our thank you list for many collaborations held together with gorilla glue. Please Open It. Take a whiff. If u take something leave something.

- 1 large bottle of residual brexit lees {vinegar}
- 2 bags of grape skins
- 2 bottles of Garden Don't Care wine, 18 feet squish, 180 toes
